## FULL STACK WEB DEVELOPER & WEB DESIGNER

Technical and Innovative Front End Developer with a passion for UI/UX, Design and armed with technical skills in end-to-end software development and Web Applications Design. Strives to build creative and adaptable solutions with an open mind and critical thinking. Highly Motivated with a fierce passion for learning and ingenuity. Capable of working autonomously with an itch to sweat the small stuff & prettify anything within reach. Enjoyed collaborating with Alejandro G., Matthew A., and Jason N. on the [GG](#) Full Stack Web App as lead UX designer and Front End Engineer, utilizing HTML, CSS, JavaScript, JSX, Mongo & React and multiple RESTful API's. Rigged with the skills needed to do the job and the drive to give every client the best possible product they could hope for.

---
